Improving lives through wellness, recovery and independence.

MH Recovery Supports
Mental health recovery supports can include therapeutic and specialized foster care, art therapy and other supportive recovery services not covered by insurance.

MH Treatment Services
Mental health treatment supports can include assessment, case management, psychological testing, individual and group therapy, nursing services, psychological rehabilitation, screening, brief intervention, referral to treatment, Community Psychiatric Supportive Treatment (CPST), Assertive Community Treatment (ACT) and Intensive Home Based Treatment (IHB).

Peer Support
Provided by individuals in recovery from mental illness and/or addictions who use their lived experience as a tool to assist others by sharing their personal journeys and knowledge. Peer support can play a vital role in laying the foundation for sustained recovery. Some examples are AssertED, Project SOAR, drop-in centers, and the warmline (440-886-3950), which is run by and for clients.

Prevention
Preventative efforts include Early Childhood Mental Health, school-based, after-school and adult programming as well as prevention education such as social and emotional learning, coping skills and resiliency building.

Residential/Housing
Residential treatment facilities and permanent housing provides supervised care to individuals 18 years or older and provides interim or long-term support and services for those who are potentially at risk of institutional placement, are transitioning from institutional settings or homelessness. Residential facilities are broken into classes based on the level of care needed. Some facilities may include personal care, social services, mental health services and/or recovery supports to clients.

Sober/Recovery Beds
Recovery housing is characterized as a safe and healthy living environment that promotes abstinence from alcohol and other drugs and supports medication retention and treatment in traditional clinical treatment. Residents benefit from peer support and accountability, and gain valuable relapse prevention, case management and employment skills training as they transition to living independently and productively in the community.

SUD Treatment Services
SUD treatment services can include assessment, individual and group counseling, case management, drug screens, medication management, nursing services and withdrawal management. Connecting with a case manager at a provider agency can enhance the overall treatment for individuals living with mental illness and/or a substance use disorder. A case manager can provide information about medical, social, educational and other services to assist in reaching and maintaining recovery.

Faith-based Services
Programs/events/activities that promote spirituality, health and wellness, prevention/early intervention, awareness and education within an overarching goal to reduce/eliminate stigma within faith-based communities. Faith-based programming includes:

- Mental Health/Crisis Services
- Residential/Disposition Services
- Sober/Recovery Housing
- Faith-based Services

Fold out this brochure to find an alphabetical listing of provider agencies and the substance use disorder (SUD), mental health (MH) treatment and recovery support services (as described below) found by or through the ADAMHS Board of Cuyahoga County.

Adult and Family Care
The ADAMHS Board funds family support groups and supportive services for families and adult clients.

Transportation
Remove barriers to sustained recovery by providing transportation to and from treatment.

Crisis Services
Provides assistance in a crisis situation to safely de-escalate an individual or situation, determine appropriate treatment services, and coordinate the follow through of those services and referral links to address the problem that led to the crisis.

Detox
Assists individuals suffering symptoms of withdrawal from substance use with 24-hour medical monitoring and/or withdrawal management. Detox is the first step toward recovery for most clients living with SUD.

Employment Services
Promote recovery by providing training and skill development that is goal-oriented, ability-based and incorporates individual choice in securing and maintaining employment.

Outpatient Treatment
Struclurized individual and group alcohol and drug addiction activities and services that are provided at an outpatient program for a minimum of eight hours per week with services provided at least three days per week.

Justice Related Services
Programs that support individuals who are court-involved or who are currently incarcerated. This includes assessments, drug courts and access to treatment and recovery support services.

Medication Assisted Treatment (MAT)
MAT is a treatment for opioid use disorder that includes the use of medication such as methadone, naltrexone (Vivitrol) or buprenorphine (Suboxone) along with counseling and other supports to aid individuals in recovery.

MH Recovery Supports
Mental health recovery supports can include therapeutic and specialized foster care, art therapy and other supportive recovery services not covered by insurance.

MH Treatment Services
Mental health treatment supports can include assessment, case management, psychological testing, individual and group therapy, nursing services, psychological rehabilitation, screening, brief intervention, referral to treatment, Community Psychiatric Supportive Treatment (CPST), Assertive Community Treatment (ACT) and Intensive Home Based Treatment (IHB).
