

MACSIS Communication

FY10 Archive Update

Sent on: January 11, 2012

Background:

This communication is a reminder of the FY10 archive that is scheduled to begin Thursday, January 12, 2012 at 11:59 PM. All claims with a date-of-service on or before June 30, 2010 and a PROCSTAT of "P" will be archived. In addition to the standard archive/purge, we will also be archiving F Claims that meet the same date criteria as the standard archive.

All Board access to MACSIS will be closed Thursday, January 12, 2012 at 11:59 PM. Access to the system will be restored upon successful completion of the archive process. We estimate that normal weekly processing will begin Tuesday, January 17, 2012 at noon. A communication will be sent to all Boards and Providers upon successful completion of the archive process and when Board access has been restored. An extract of the archived claims will be produced and made available to the Boards sometime in February (2012).

ODMH will produce the usual claims and member extracts the weekend of January 14th, and the MHHUB (FTP) server will be online during the entire process. If you have any questions, please contact the MACSIS Support Desk via phone (877-462-2747) or e-mail (macsisupport@mh.ohio.gov).
