Pooled Funding: $12,678,507

Client-Centered Funding Strategy for Mental Health and Addiction Treatment Services

Since Medicaid Expansion and Behavioral Health Redesign, mental health and addiction treatment services for more and more individuals are being covered. The ADAMHS Board has found that there is no longer a need to allocate and encumber funding by agency for treatment services. Therefore, the ADAMHS Board is piloting a change to the method of payment for treatment services in CY19.

Agencies providing treatment services will not receive a specific allocation. The treatment services for individuals who are not eligible or waiting for Medicaid will be paid from a pooled funding source through fee for service billing. The available pool of funding was determined by CY17 and CY18 treatment funding usage. The ADAMHS Board will monitor the funding pool through monthly utilization reviews.

To assist treatment providers through this transition, agencies will receive two months of funding based on the average of CY17 and CY18 utilization that will be reconciled against actual billing within six months. The provider will be able to bill for and receive payment for treatment services while also receiving the two months of funding.

Standardized Rates for Treatment Services

The ADAMHS Board is in the process of developing standardized reimbursement rates for treatment services. At this time, standardized rates will be an average of the new Medicaid rates regardless of the practitioner rendering the service that can be billed through the current SHARES Behavioral Health Care Management Information System. For example only:

- 15-minute Group Counseling MD: $100
- 15-minute Group Counseling LISW: $80
- 15-minute Group Counseling LSW: $60
  - ADAMHS Board would pay all 15-minute Group Counseling at an average of $80.

Please note: The ADAMHS Board may have the future ability to pay the rendered service rates through a new Behavioral Health Care Management Information System.
Examples of Treatment Services Covered by Pooled Funding

Mental Health Treatment Services:

- Psychological Testing
- Individual Therapeutic Behavioral Services
- Group Therapeutic Behavioral Services
- Nursing Services Individual
- Nursing Services Group
- Psychosocial Rehabilitation
- Screening, Brief Intervention and Referral to Treatment
- Community Psychiatric Supportive Treatment (CPST) – Individual
- Community Psychiatric Supportive Treatment – Group
- Assertive Community Treatment (ACT)
- Intensive Home Based Treatment (IHBT)

Substance Use Disorder (SUD) Treatment Services:

- Assessment
- Individual Peer Recovery Support
- Group Peer Recovery Support
- Individual Counseling
- Group Counseling
- Case Management
- Urine Drug Screening
- Nursing Services – Individual
- Nursing Services – Group
- Intensive Outpatient Program (IOP)
- Withdrawal Management
