Why OSPF is Important

OSPF Supports:

- Local suicide prevention efforts
- Statewide suicide prevention training and research
- Evidence-based suicide prevention programming, and education

Did you know Ohio has suicide prevention coalitions across 80 counties providing local awareness and education on suicide prevention? Or that Ohio has Local Outreach of Suicide Survivor (LOSS) teams across 24 counties providing peer-based support to those who lose a loved one to suicide?

The ADAMHS Board of Cuyahoga County

ADAMHS Board Supports:

- The Cuyahoga County Suicide Prevention Coalition
- Funds The Local Crisis Hotline in Cuyahoga County: 216-623-6888
- Community, school and corporate suicide prevention training and education

This support is needed now more than ever as suicide in Ohio remains far too common.

Adult Statistics for Ohio:

- Suicide make up 65% of Ohio's violent deaths
- Ohio's suicide rate is above the national average at 13.9 deaths per 100,000 individuals
- The majority of Ohio suicide deaths occur in adult men
- The highest Ohio suicide rate occurs in older adult men (65+) with a rate of 38.6 per 100,000
- Over 90% of those who die by suicide have a diagnosable mental health condition at the time of death

When is the last time you discussed positive mental health with the men in your life?
Stand Up Together Ohio will encourage Ohioans to Stand Up Together and raise awareness of male mental health in Ohio.
