

## Increasing Community Involvement; Decreasing Youth Violence and Drug Use

**Safe Summer 2015** is a collective effort between Cleveland Clinic's Outreach Department, Cleveland Clinic's Police Department Community Outreach Division and community partners to promote a better understanding of the issues surrounding violence in our communities. The goal is to show the high healthcare cost associated with violence, fear and at-risk behaviors. This project will serve as the model for creating safer neighborhoods with well-informed citizens. With this program Cleveland Clinic and community partners will collaborate to develop specific strategies and programs designed to reduce and prevent youth violence.

### Creating a safe and healthy environment in Northeast Ohio.
