The report is attached to the original minutes stored in the Executive Unit.

Ms. Sizemore-Rice stated that the faith-based programming for children K-12th grade is measured through the Devereux Student Strengths Assessment (DESSA) instrument. The DESSA web-based system is designed to help school and after-school program staff promote the healthy social-emotional development of all children. The DESSA is a thorough assessment of the following social-emotional competencies: self-awareness; social-awareness; self-management; relationship skills; goal directed behavior; personal responsibility; decision making skills; and optimistic thinking, which translates to a score and categorized through a numerical value. 60 and above indicate social and emotional "Strengths" showing children doing well; 40-59 indicate "Typical" positive behaviors for children; and 40 and below indicate "Need for Instruction" to further develop social and emotional skills. The report identifies the DESSA K-8th completed pre/post submissions for the five agencies to date.

The faith-based program for adults demonstrates resiliency measured as Always (A), Sometimes (S), or Not Yet (N) through the Devereux Adult Resilience Survey (DARS) instrument that promotes self-awareness regarding personal strengths to enhance creativity and the ability to set limits to cope with adversity and stress measured through the following areas: Will gain knowledge to develop healthy relationships; Will learn skills to increase self-worth to enhance internal beliefs and values; Will learn strategies to develop/enhance self-motivation to increase independence; and Will learn to self-regulate and control without the use of substance and negative influences. The report identified the four agencies that have submitted their DARS data to date; Trinity Outreach Ministries, Inner Healing Ministries, OhioGuidestone and Coalition for a Better Life.

[Dr. G. Boehm arrived.]

Mental Health First Aid is designed to teach individuals how to spot the signs and symptoms of mental illness and provide help on a first aid basis. 9. OUTCOME REPORT FROM BEHAVIORAL HEALTH WELLNESS FAIR

Mr. Bill Hebble, Clients Rights Officer II, reported on the 2019 Client Wellness Fair, which was hosted at the Cleveland Airport Marriott on July 22, 2019. Approximately 130 clients participated in the Fair. This number was based on the number of tickets issued to clients and the number of evaluations completed. Approximately 65 ADAMHS Board staff, Board members, and vendors were in attendance. The ADAMHS Board promoted the event through e-mail blasts to provider agencies and group homes, flyer mailings sent to client's home, as well as public announcements at monthly Client Lunch and Learn sessions and ADAMHS Board meetings. Several provider agencies and group homes brought groups of clients to the event.

The Wellness Fair focused on all aspects of wellness in a variety of ways. Some of the activities offered included the following:

- Resource Tables providing a wide variety of beneficial information about community services;
- Client Workshops including stress management, nutrition and home wellness;
- Medical Screenings including biometrics, podiatry, dental and vision; and
- Interactive Sessions including Reiki, Tai Chi, Yoga, and Healthy Cooking demonstrations.

Feedback from the surveys were overwhelmingly positive. The clients noted that the activities that they enjoyed the most were as follows: Tai Chi; Reiki; Healthy Cooking demonstrations; Yoga; and the diversity of screenings, activities and resource tables. Clients noted that the boxed lunches were the least liked about the Wellness Fair. Other thoughts about the Wellness Fair included a great appreciation for hosting the Fair and their overall enjoyment of the Fair; however the clients noted that they would like the event to be longer, more sessions and to become an annual event.

The successes of the Wellness Fair included the personal-pace schedule. The agenda of the Wellness Fair was shared with all participants at registration. Clients could attend specific sessions and have screenings performed throughout the day at their own pace. Clients could also choose when to break for lunch. The challenges of the Wellness Fair included a more streamlined registration process and the venue layout.

Mr. Hebble noted that ADAMHS Board staff have retained and documented the contact information of vendors whom participated in this year's Wellness Fair. Many clients indicated that this event would be ideal as an annual summer client event. He stated that on behalf of the ADAMHS Board, a very large thank you to everyone for their assistance and support to make this event the great success it was. The PowerPoint presentation is attached to the original minutes stored in the Executive Unit.

This project is a collaboration between the community mental health agency, the Cuyahoga County Jail, and the Cuyahoga Court of Common Pleas.

The Mental Health Jail Liaison Program consists of one Specialist and four agencies. Ms. Lottie Gray, LISW, the Jail Liaison Specialist; which is a jointly funded position by the ADAMHS Board and Court of Common Pleas, was created to provide direction, consistency, oversight and be a spokesperson to court and jail on behalf of the Jail Liaisons. This position also assists with the identification of Mental Health court eligible clients currently in custody in the county jail; and is active within the courts.

Four provider agencies; MetroHealth, Murtis Taylor Human Services System, Recovery Resources, and Signature Health have staff that facilitate this program in a liaison role. These liaisons provide mental health screening, assessments, and provide treatment intervention recommendations to those clients incarcerated in the Cuyahoga County Jail. They meet individually with clients, while incarcerated in the County Jail to provide continuity of care and linkage; perform full diagnostic assessments within the county jail for community linkage to the provider agency (new and closed clients); and provide written reintegration plans, coordination of care and treatment recommendations to Cuyahoga County Court of Common Pleas (CCP), CCP Mental Health Court, Specialist and staff.
