Finally, Board staff will meet with representatives of The MetroHealth System to discuss these matters in detail. A more comprehensive update will be provided at the General Meeting.

Care Response Pilot Program Update

Mr. Osiecki reported that the Care Response Pilot program is progressing well. He mentioned that FrontLine Service is in the process of hiring staff and has made some excellent selections. R Strategy is finalizing a report based on the community engagement meetings, and once it is received, Board staff will share it with the Board Directors. Board staff continue to meet weekly with FrontLine Service and R Strategy to ensure the program's advancement. The next steps include advertising the program in zip codes 44102 and 44105, with the goal of launching the Care Response Pilot program by the end of summer.

Ms. Tolbert mentioned that FrontLine Service staff expressed satisfaction with the quality of candidates, attributing it to the Board's assistance with salaries. They are on track to have two teams ready. The Program Managers are currently working on developing policies, procedures, communication protocols, and training. Ms. Carole Ballard, Director of Education and Training, has offered to assist with this training. Additionally, they have a list of trainings that all FrontLine Service staff receive, but these teams will undergo additional training based on community feedback. The two Program Managers will participate in interviews with the individuals they will be supervising.

- **RESOLUTION NO. 24-05-03 – APPROVAL AND RATIFICATION OF CONTRACTS:**

1. OhioMHAS: State Opioid and Stimulant Response (SOS) 3.0 Carryover Funding
 - Ohio Pharmacy Services - \$32,914

Ms. Addison reported that in State Fiscal Year (SFY) 2024, OhioMHAS is making the state's SOS carryover funds available to Boards to mitigate the opioid and stimulant crisis. Northern Ohio Recovery Association (NORA) operates a crisis center and hotline from 9:00 a.m. to 1:00 a.m., including a mobile outreach team which makes regular visits to all county neighborhoods. Peer supporters and outreach workers on the team provide referrals for essential needs including medical services, identification (ID) services, food, housing, clothing access, and distribute harm reduction supplies to adults 18 and older. This carryover funding will be used to purchase and provide 686 naloxone overdose reversal kits to the NORA crisis outreach team. Board staff recommend that the Board Directors accept funding from OhioMHAS and approve the purchase of naloxone overdose reversal kits for \$32,914 for the term of September 30, 2023 through September 29, 2024.

2. Ohio Association of County Behavioral Health Authorities (OACBHA) FY2025 Membership Dues – \$19,000

Ms Addison reported that the membership dues are for OACBHA, which is the statewide organization that represents the interests of Ohio's ADAMHS Boards at the state level. Each member, including the ADAMHS Board, pays annual membership dues to OACBHA to support its operations, advocacy and educational efforts. OACBHA works to provide education, develop policies and seek support for initiatives that will expand and enhance mental health and substance abuse prevention, treatment and recovery support services. OACBHA provides a forum to address statewide issues and provides Boards with a single voice to communicate with a variety of governmental bodies to promote a Recovery Oriented System of Care. The dues remain the same as the previous fiscal year.

OACBHA decisions and actions are guided by compassion and the needs and experiences of people living with mental illness and/or addictions, as well as the desire to improve their quality of life. They advocate for system funding to provide mental health and addiction treatment and recovery services to clients, influence legislation for the best interest of clients and provide educational opportunities for clients, providers and ADAMHS Board Directors and staff. OACBHA offers Culture of Quality Board certification to ensure best practices at the Board

level. Board staff recommend that the Board Directors approve the payment to OACBHA for annual membership dues for the term of FY2025 (July 1, 2024 through June 30, 2025) in the amount of \$19,000.

3. Chief Clinical Officer Consultant
 - Leslie M. Koblentz, M.D., J.D., M.S. - \$180 per hour, not to exceed \$187,200

The Chief Clinical Officer function is required under the Ohio Revised Code (ORC) for the mental health component of the funds rendered to the Board by OhioMHAS. The Board transformed the position of Chief Clinical Officer from a staff position to an independent contractor position in January 2009. Dr. Koblentz is a psychiatrist with extensive experience in clinical and administrative areas. She brings a unique perspective to the Board, being both a physician and a lawyer. With over 24 years of experience, Dr. Koblentz has dedicated her career to the public mental health system and has collaborated with various systems to ensure that people living with mental illness and substance use disorders receive the best treatment and recovery supports available. Dr. Koblentz has been the Chief Clinical Officer Consultant since May 1, 2019. Dr. Koblentz will provide up to 20 hours of service to the ADAMHS Board each week and will represent the Board on administrative clinical issues, clinical services and inpatient care services. Board staff recommend that the Board Directors approve a contract with Leslie M. Koblentz, M.D., J.D., M.S., to serve as Chief Clinical Officer Consultant of the ADAMHS Board for the term of June 1, 2024 through May 31, 2025 at \$180 per hour, not to exceed \$187,200.

4. Fentanyl Test Strips – Harm Reduction – \$52,461
 - BTNX, Inc. (fentanyl test strips) - \$50,000
 - Brothers Printing – fentanyl test strips instructions/inserts - \$2,461

Ms. Addison reported that at least 447 victims have died from heroin/fentanyl/analog or in combination through November 2023. In 2023, when including cocaine, there were at least 592 fatalities. The driving factor of fatalities continues to be fentanyl mixed with other drugs. The rate of African American deaths involving fentanyl is 38.09% of all victims in December 2023 and over 35.03% for the year. As many as 22 cocaine related deaths occurred in December 2023 with as many as 12 with fentanyl, heroin, or both mixed in. A collaborative approach to supporting harm reduction efforts is needed to help save lives. It is also important that we share harm reduction information all year round. Harm reduction efforts such as education and fentanyl test strip distribution are some ways we hope to reduce the number of fatal overdoses. It is important to note that all our resources inform residents how to connect with care when they are ready for treatment.

Fentanyl test strips will assist with reducing overdose deaths by working with harm reduction partners, grassroots organizations and community businesses to increase access to fentanyl test strips. If each person receives three test strips, more than 37,700 individuals will be reached. Board staff recommend that the Board Directors authorize the purchase of harm reduction supplies not to exceed \$52,461 for the term of January 1, 2024 through December 31, 2024.

● **RESOLUTION NO. 24-05-04 – APPROVAL OF CONTRACT AMENDMENTS:**

1. Amendment to Resolution No. 23-11-07, Recovery Housing Program
 - Community Assessment and Treatment Services (CATS) - \$75,000

The Board began funding CATS Recovery Housing program in 2022. The CATS Recovery Housing program started by providing 30 beds for men. They have since renovated a section of their building and have added an additional 24 beds. CATS now has a total of 54 Recovery Housing beds, to provide safe, substance-free housing. As a result of the additional beds and targeted outreach, their enrollment has significantly increased, and they have utilized their 2024 funding.

CATS Recovery Housing program provides a safe, sober space for clients to stay while engaged in Substance Use Disorder (SUD) Outpatient Treatment and practice learned recovery skills in the community. CATS Recovery Housing program allows more time for residents to seek employment and permanent housing while focusing on

their recovery. The house manager of the CATS Recovery Housing program provides monitoring, motivational enhancement, and coaching. The house manager also conducts weekly house meetings. In addition, residents also have access to peer support services and structured activities. An estimated 72 clients will be served. Board staff recommend that the Board Directors approve a funding increase of \$75,000 for the term of January 1, 2024 through December 31, 2024, to allow more clients to utilize the CATS Recovery Housing program.

2. Amendment to Resolution No. 24-01-03, Care Response Communications and Community Engagement Consultant
 - R Strategy Group - \$154,189.99

Care response is a health-first approach that deploys teams of behavioral health professionals and peers with lived experience on mental health crisis calls. Over the past several years, R Strategy Group has worked with the ADAMHS Board, Magnolia Clubhouse, and experts and advocates in Cuyahoga County and across the state and country to move care response forward. Foundations are extremely interested in the work that R Strategy is doing and interested in continuing their financial support, but that support will not be available until early in the second quarter of 2024.

Adding funding in the amount of \$154,189.99 broken down into \$150,000 for consulting work for Care Response Communications and Community Engagement through the end of the year and \$4,189.99 to reimburse R Strategy Group for additional costs associated with Community Engagement Meetings such as facility rental fees, snacks and coffee, residents' cell phone data and robotexts to residents, and extending the contract through December 31, 2024. R Strategy Group anticipated that it would receive \$250,000 from foundations but was only able to secure \$100,000. R Strategy Group will serve as a consultant to assist the ADAMHS Board with communications and community engagement related to the Care Response Pilot in the City of Cleveland in addition to spearheading a Community Advisory Committee. R Strategy Group will work with the ADAMHS Board to: (1) present clear and consistent communications regarding care response; (2) increase the community's knowledge and awareness and get buy-in of care response; and (3) be responsive and adaptable to feedback and lessons learned during the pilot. Board staff recommend that the Board Directors approve a contract amendment for an increase in the amount of \$154,189.99 for a total of \$213,689.99 and extend the term of contract through December 31, 2024.

3. Amendment to Resolution No. 23-09-05, Outpatient Competency Restoration Education Allocation
 - Murtis Taylor Human Services System - \$52,000

Outpatient Competency Restoration is designed for people with a mental health disorder or co-occurring psychiatric and SUD who are found incompetent to stand trial and are court-ordered to participate in competency restoration treatment. Senate Bill 2, which was signed into law by Governor DeWine on April 27, 2021, aims to improve access to and increase the quality of mental healthcare in Ohio by making reforms to Ohio's competency restoration procedure to allow nonviolent offenders to receive competency restoration treatment in outpatient settings, rather than in the state psychiatric hospital. Allowing outpatient restoration treatment will help to ensure that state psychiatric hospital beds remain available for Ohioans suffering from serious mental illness.

Staff of the Murtis Taylor Human Services System will meet with individuals involved in nonviolent offenses found incompetent to stand trial by the court to provide legal education as part of the Outpatient Competency Restoration process. Staff will meet for one to two hours each week with the individuals for no more than two months to ensure that the clients understand the charges, legal representation and actions of the court. Based on the most recent available number of admissions to Northcoast Behavioral Healthcare, it is estimated that 35 individuals would be eligible for Outpatient Competency Restoration per year. Board staff recommend that the Board Directors accept additional funding from OhioMHAS for the Outpatient Competency Restoration program in the amount of \$52,000 for SFY24 (July 1, 2023 through June 30, 2024) and to continue to contract with Murtis Taylor Human Services System to provide the educational component of the Outpatient Competency Restoration process.

4. Amendment to Resolution No. 23-11-07, Property Management for Consumer Operated Services
 - Emerald Development and Economic Network (EDEN), Inc. - \$106,420

These funds will increase funding for the Property Management for Consumer Operated Services program by \$106,420, bringing the total to \$175,222, thereby increasing EDEN's CY2024 allocation to \$4,091,590. The funding will be used at Future Directions, located at 2070 West 117th Street in Cleveland Ohio, for waterproofing the basement due to water leakage, which is causing electrical issues.

As part of the EDEN CY2024 Contract, EDEN provides property management for the property, allowing it to be used as a Consumer Operated Service site by Future Directions. EDEN completes any work orders necessary to maintain the property and carry out required repairs. EDEN issued a Request for Proposal to remediate the water leak into the basement and perform waterproofing, and the lowest responsive bid was \$106,420. Board staff recommend that the Board Directors approve a contract amendment for an increase in the amount of \$106,420 to the Property Management Consumer Operated Services program for a total of \$175,222, which makes the CY2024 Contract \$4,091,590, for the term of January 1, 2024 through December 31, 2024.

5. Amendment to Resolution No. 23-06-02, Community Needs Assessment – \$113,719.20
 - RAMA Consulting - \$108,457
 - Holiday Inn Cleveland South - \$5,262.20

The ADAMHS Board conducts a Community Needs Assessment every three to five years, to ensure the local public system for mental health, addiction and recovery services continues to adapt to ever-changing and high-intensity demands, and that constrained resources are allocated appropriately. The assessments assist the Board in identifying areas of greatest need for client services for planning, funding, evaluating, and advocacy purposes. OhioMHAS, as well as general evaluation standards, suggest that local Boards conduct a thorough Needs Assessment approximately every five years. The last ADAMHS Board Community Needs Assessment was completed on May 15, 2020, using data collected primarily from 2019. Board staff request a Needs Assessment based primarily on 2023 data, to provide the most up-to-date insights on emerging trends and continuing needs.

This funding will add \$512.20 to the Community Needs Assessment for the Stakeholder Summit to be held at the Holiday Inn Cleveland South in Independence on Thursday, June 6, 2024, and reallocating \$4,750 from RAMA Consulting to Holiday Inn Cleveland to allow the ADAMHS Board to pay Holiday Inn Cleveland South directly for the costs of the Stakeholder Summit to take advantage of the ADAMHS Board's tax-exempt status. RAMA Consulting will conduct a Community Needs Assessment to inform funding and program priorities for the ADAMHS Board. The Community Needs Assessment will include a review of existing and publicly available data to assess county demographic trends, service usage statistics, state and federal policy influences, benchmarking data, etc.; stakeholder interviews, surveys and focus groups; working groups; and a final report presented to the ADAMHS Board of Directors. Board staff recommend that the Board Directors amend Resolution No. 23-06-02 to add \$512.20 to the Community Needs Assessment for the Stakeholder Summit, transfer \$4,750 from RAMA Consulting to Holiday Inn Cleveland South, and approve a contract amendment with RAMA Consulting for \$108,457 and a contract with Holiday Inn Cleveland South for \$5,262.20 for the term of September 1, 2023 through December 31, 2024.

Motion to approve the Consent Agenda (Resolution Nos. 24-05-02 through 24-05-04). MOTION: B. Gohlstin / SECOND: R. Blue / AYES: B. Addison, A. Bhardwaj, R. Blue, G. Boehm, E. Cade, J. Dixon, S. 10. CUYAHOGA COUNTY DIVERSION CENTER REPORT

Ms. Clare Rosser provided a Cuyahoga County Diversion Center overview. She reported in her overview that FrontLine Service handles the Call Center, Oriana House takes care of the operations of the Diversion Center and the ADAMHS Board is responsible for the Crisis Intervention Team (CIT) training.

FrontLine Service's Call Center operates 24/7/365, providing a hotline for law enforcement and others to screen for eligibility for the Diversion Center (216.623.6888). Of the 4,256 total calls received to date, 740 were from police and 3,516 were from community members, individuals, or other agencies. Since 2021, the number of calls from community members, individuals, and agencies has

continued to increase. The number of calls from police increased in 2021 and 2022, but there was a slight decrease of 67 police calls in 2023 compared to 2022.

Oriana House has completed 1,972 admissions/intakes, which means the clients arrived onsite either through police transport or other means and completed the admission process. This total includes repeat clients. 3,808 contacts have occurred to date. "Contacts" are instances when a potential client arrived at the Diversion Center. From those 3,808 contacts, the admissions process was completed 1,972 times. When an individual is eligible for admission, it is still the individual's choice to stay at the Diversion Center. During Quarter 1 2024 the admissions/intakes by month were as follows: 72 admissions/intakes in January, 64 admissions/intakes in February and 59 admissions/intakes in March. Out of all 1,972 admissions from inception, 276 had a client diagnosis of Serious Mental Illness (SMI), 366 had a client diagnosis of SUD and 1,330 had a client diagnosis of SMI-SUD. The average length of stay for all clients was 5.21 days. The average length of stay for SMI was 4.41 days, the average length of stay for SUD was 5.10 days and the average length of stay for SMI-SUD was 5.39 days.

From May 2021 through December 31, 2023, the Diversion Center made 840 referrals to 116 partner agencies. The top three agencies for referrals were Y-Haven with 66 referrals (8%), Signature Health with 63 referrals (7.5%), and FrontLine Service with 55 referrals (6.5%). The discharge reasons for all clients since the program's inception were as follows:

- 51% of clients successfully completed the program.
- 41% of clients left against staff advice (AMA).
- 6% of clients were transferred to another facility for health reasons.
- 2% were involuntarily discharged due to rule violations.

The ADAMHS Board has served as the CIT Coordinator for Cuyahoga County since 2004. The total number of personnel trained in quarter 1 of 2024 was 59. The total number of personnel trained includes 222 in 2023, 402 personnel in 2022 and 673 personnel in 2021, is 1,356. This number reflects trainings connected to the Diversion Center contract. In 2023, roll call outreach numbers shared included 498 attendees across 20 police departments. (The Cuyahoga County Diversion Center Overview handout is attached to the original minutes stored in the Executive Unit.)

Service Description:

- All 12 ADAMHS Board management team members will receive a 360-evaluation utilizing an instrument recommended by WORKING RIVER LEADERSHIP CONSULTING.
- Each management team member will be evaluated by Board staff members as recommended by the consultant. The staff members will be categorized in the following “rater” groups: Direct Reports, Peers (all management would fall into this category), Self, and Other.
- WORKING RIVER LEADERSHIP CONSULTING would begin its work in the month of July – identifying a date for the work to be completed with a presentation of the results to the Board Directors no later than the October 2024 General Meeting.
- Upon completion and analysis of the 360-evaluations, WORKING RIVER LEADERSHIP CONSULTING will highlight each management team member’s strengths, suggested areas of improvement, strengths to leverage and suggestions for further development, and report these results to the Board Directors. The consultant will help set goals, develop action plans, and monitor progress.

Background Information:

- The ADAMHS Board Directors Executive Committee recommended that the ADAMHS Board management team receive a 360-evaluation to enhance the Board’s organizational health, which includes communication, leadership, employee wellbeing, employee engagement, culture, accountability and recognition.
- The purpose of this initiative is to develop and retain staff as we all work toward our mission of enhancing the quality of life for the people of Cuyahoga County through mental health and addiction prevention, treatment and recovery supports. It is not meant to be punitive to any management team member.
- One of the 2024 CEO Goals is: Continue internal succession planning that includes: aligning staff for advancement within the ADAMHS Board and documenting institutional knowledge to prevent loss during staff

transitions and retirements and reviewing and updating job descriptions for all staff members, especially for the senior staff.

- The Cuyahoga County/City of Cleveland Youth Mental Health Workforce Sprint Task Force, which the ADAMHS Board is a member, made seven recommendations or ways to attract, retain and better support mental health professionals serving young people in Cuyahoga County. One of the recommendations requests that providers define clear career ladders, including training programs, competencies and skills, professional development, continuing education, and opportunities for licensure and certification at all levels of education across all professional disciplines. Since we are asking this of providers, it only makes sense for the ADAMHS Board to require the same for its staff.
- WORKING RIVER LEADERSHIP CONSULTING, was selected based on experience and a presentation made to the Board Directors during the June 12, 2024 Finance and Oversight Committee.
- WORKING RIVER LEADERSHIP CONSULTING a northeast Ohio training boutique, designs and delivers B2B and B2C learning products and services for working professionals, managers, and organizational leaders. Damaris Patterson Price (*she/her*)

Principal, Working River Leadership Consulting.

Objective

By

- Developing the leadership competency and confidence of ADAMHS senior management,
- Selecting a safe, reliable, and informative vehicle for data collection, feedback, and action planning,
- Supporting the coaching practice of senior leaders as they develop others and
- Leveraging a repeatable methodology and practice for leadership development in the future,

the overarching aim of this work is to optimize organizational performance, improve employee engagement, enhance strategic decision-making, and support leaders in nurturing a more positive organizational culture, ultimately positioning ADAMHS as a leader in mental health services administration.

Components & Methodologies

360° Leadership Assessment

An area of focus for the ADAMHS board is supporting the leadership competencies of 13 senior leaders and their ability to win and retain the engagement and followership of their staff. Emotional Intelligence and relational competencies may be a specific area of concern.

Activity 1 | Instrument Selection & Design

The selected instrument could focus on leadership competencies overall, of which relational skills are only a part, emotional intelligence specifically, or the assessment that allows for custom design based on the organization's existing competency model can also be identified.

Activity 2 | Orientation

Because this type of intervention is new to the organization, great effort should be made to launch this process appropriately, positioning it as positive, safe, non-punitive, and focused on enhancing the leaders' abilities.

Activity 3 | Deployment

The instrument is deployed over a three-week period while assessment/respondent traffic is closely monitored administratively, i.e., reminders are sent to maximize assessment responses. A piece of pre-deployment logistical planning could include respondent group management that balances "respondent fatigue" and participants' targeting only "friendly" respondents whose feedback may skew the integrity of the data.

Activity 4 | Results

Both individual and group-level reports are produced. The group-level reports for chiefs and directors show overarching team strengths and areas of opportunity that may be the focus of development later on.

Activity 5 | Coaching

Assessments are designed only to deliver data and should not replace fundamental coaching intended to grow skills. This plan includes two levels of coaching: A.) Each participant has a one-hour one-on-one session with the consultant, during which the consultant reviews the employee's results, helps identify three focus areas, and deploys the employee to develop their initial action plan to be discussed and implemented with their manager later. B.) The consultant readies managers through a 90-minute workshop on effective coaching strategies to support their employees' ongoing development.

- New Program** **Continuing Program** **Expanding Program** **Other** _____

Service Description:

- The Whole Child Matters (WCM) Initiative promotes strong mental health foundations for children to reduce preschool and kindergarten expulsions and improve school readiness among children ages eight (8) and younger through the newly formed Ohio Department of Children and Youth (DCY) beginning SFY25.
- Starting Point is the centralized regional coordinating agency for WCM referrals and data collection for Cuyahoga, Lorain, and Summit Counties and will act as the intermediary fiscal agent for the current WCM service provider agencies: Wingspan Care Group (Applewood & Bellefaire JCB), OhioGuidestone and Positive Education Program (PEP).

- Based on historical referral data, the program plans to serve approximately 375 clients.

Funding Use:

- OhioMHAS collaborates with the Ohio Department of Rehabilitation and Corrections (ODRC) to provide community linkage services for offenders with severe mental illness (SMI) and substance use disorders (SUD).
- CTP works with offenders prior to release from prison to assure continuity of care. Individuals with SMI and SUD continue to experience various barriers to successful reintegration. The contracted agency will receive referrals from ODRC community linkage workers and link those offenders with community mental health and/or substance use disorder agencies.

Client & System Impact:

- CTP offers a transition benefit meant to provide resources in the community to assist with housing, work, transportation, and recovery supports upon the offenders' release to the community. This is done by ensuring appropriate referrals for mental health and substance abuse disorder treatment and services.
